

JUMBO GLASS

JUMBO ARCHITECTURAL GLASS WITHOUT COMPROMISE.

When designs push beyond standard limits, Glasswerks Jumbo Glass delivers the size, precision, and performance required for today's most ambitious architectural projects.

Our facility can produce oversized annealed and tempered monolithic glass, laminated glass, and insulated glass units featuring our G3® non-metallic spacer, new G4 TPS spacer, and low-e soft coating.

With fabrication capabilities up to 440", Glasswerks is among the largest architectural glass fabricators in Southern California—equipped to support expansive façades, cleaner sightlines, and fewer seams.
